SIEMENS PROJECT MANAGER

Projects

Power Bi Project - amazon sales dashboard

[Project Link](#)

Developed an interactive Amazon Sales dashboard using Power BI where I visualized key metrics like sales trends, top products, and regional performance and enabled data-driven insights through dynamic filters and drill-down features.

Excel project – world happiness report

[Project Link](#)

Built an Excel dashboard analyzing global happiness and sustainability indicators and used Power Query, Power Pivot, and DAX to transform and model multi-source data where I delivered insights on CO₂ emissions, renewable energy, and happiness trends across countries
